

**Toronto/Houston – August 16<sup>th</sup>, 2010** – Keen Technology Consulting, a leading provider of Technology Recruitment and Staffing services, announced today that it has added a major enhancement to its service offering: the Keen Telecommunications Practice.

The Telecommunications Practice will provide value added staffing services to CLECs, ILECs, wireless carriers, OEMs, and ASP companies in addition to non-communications businesses with communications needs.

Integral to the success of this division is the addition of several team members with over a decade of experience in staffing and solutions in the Telecommunications Industry in Canada and the U.S.

The Telecommunications Practice will provide highly experienced contract staff and project solutions to optimize communications networks. With extensive experience in Wireless, Wireline, Cable /MSO and Enterprise Support clients, as well as depth in legacy and emerging technologies including 3G, 3.5G and upcoming 4G technologies; Keen will serve all facets of the telecommunications Industry.
