

**Toronto, October 5<sup>th</sup>, 2009** – Keen Technology Consulting, a leading provider of Technology Recruitment and Staffing services, announced today that it has added a major enhancement to its service offering: Keen Leadership Sourcing and Permanent Recruiting. This cross functional practice spans Keen’s industry focused verticals.

By utilizing a dedicated practice, focused exclusively on sourcing leaders in technology driven environments, Keen’s reach will extend beyond technology specialists and on to deliver professionals in HR, Sales Marketing, and Operations.

This innovative approach to talent acquisition will provide several benefits to Keen’s clients including increased depth in leadership and executive search, and innovative delivery models including retained, contingency and fees for service research as well as recruitment outsourcing services.

With a solid background in IT staffing and consulting, KEEN will now provide additional value to its clients through innovation and increased expertise.
